

2024 COMMISSION PRICING INFO

Thank you so much for trusting me with this commission project! I can't wait to create something unique and customized exactly to your space. Original artwork is an investment (and a worthy one!) but in the spirit of transparency, please use the information below to view my pricing info, as well as consider additional costs that can come with purchasing and shipping original artwork.

PRICING

I price all of my work by the square inch. Commissioned projects are priced at a slightly higher rate since creating your custom piece is a more attentive process with lots of communication!

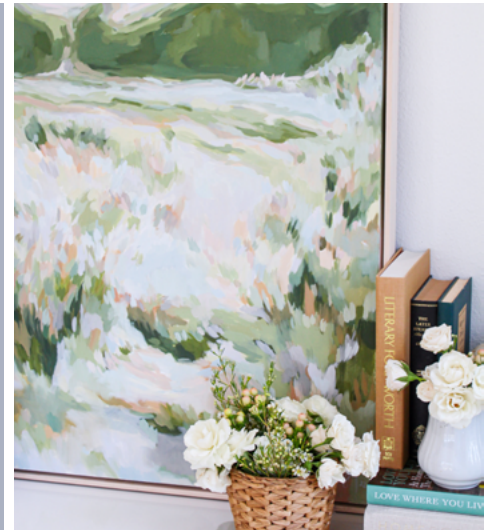

My 2024 Commission rate is \$2 per square inch.

The minimum sized painting I am accepting for commission projects is 24x36" (or \$1,700 value)

FRAMING

I have an incredible framer who builds custom floating frames for me! I often recommend adding a frame to add the perfect finishing touch to your painting. Framing is not required. Sample pricing below.

24x36"	- \$200
30x30"	- \$250
36x36"	- \$300
36x48"	\$325
40x60"	- \$475

SHIPPING

For paintings with the smallest side measuring 42" or smaller after framing, shipping is a flat rate of \$100 and will ship via UPS.

For paintings with the smallest side measuring over 42" after framing, the painting will ship via freight with a service called uShip. This cost varies on distance from my studio and local rates, but can range anywhere from \$400-\$1200.
